

How to install CALUMEN:

- Complete the registration form (this allows us to send you updates)
- Download the CALUMEN file zip-file to a directory on your PC e.g. “Desktop”
- Once downloaded double click on the program named: “Calumen II.exe”
- You will then see this window. The prompts are in French, but translate as follows:

- Then, from the selected directory double click on the program named: “setup.exe” and follow the instructions
